

DGSHAPE CLOUD

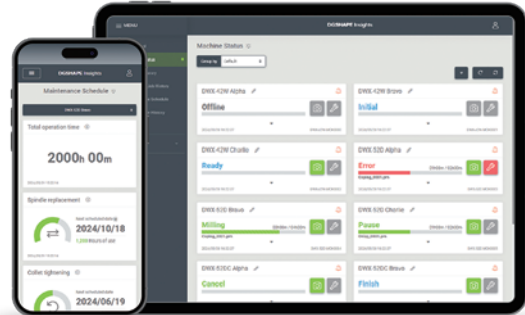

World-Class Applications
The Future for Your Dental Business

DGS SHAPE CLOUD

Advanced Support

DGS SHAPE CLOUD offers an improved device support platform built to keep your milling centers running with minimal downtime. Monitor the job queue and access live image and recorded video during your production hours. Use a step-by-step protocol to keep your devices operating at maximum efficiency.

*Camera must be purchased separately to see the image/video.

Monitor Your Milling Center From Anywhere

Having access to remote monitoring capabilities is critical to maintaining the highest level of productivity. The new remote access feature allows you to view unit output, utilization and completed jobs, and offers support for your device while you are away from your milling center.

*DGS SHAPE CLOUD is compatible with DWX-53DC, DWX-52DCi Plus, DWX-52D Plus, DWX-52Di, DWX-42W Plus, DWX-4.
